About the workshop:

As there is a paradigm shift in understanding of pelvic floor anatomy and physiology, it is very important to keep our knowledge updated. Patients with urological problems constitute a significant number in gynecologist’s practice making them their primary physicians.

This workshop is designed to meet the needs of practicing gynecologists. The workshop is guided by experts in the field of urogynecology to spread the knowledge and share their experiences. There will be demonstration of interesting cases, stepwise illustration of surgical techniques and latest surgical innovations to ensure maximum patient safety and success of the procedures. Keeping abreast with the recent advances in urogynecology will help us in our day to day practice.

We request your active participation to make this event a successful one.

VENUE: Hotel Taj Vivanta, Yeshwanthpur
Live relay from People Tree Hospital, Tumkur Road, Bengaluru

CONVENER:
Dr. R Nagarathnamma
nagarathna59@gmail.com
9845133014

CO CONVENERS:
Dr. Chandrika Muralidhar
Dr. Kiran Ashok

COORDINATORS:
Dr. Jyothi Neeraja
Dr. M P A Sailakshmi

MENTOR: Dr. Shakila Shetty

NATIONAL ADVISORS:
Dr. Anuradha Koduri, Hyderabad
Dr. Rajamaheshwari, Chennai
Dr. Vineeth Mishra, Ahmedabad

PROPOSED NATIONAL FACULTY
Dr. Aparna Hegde, Delhi
Dr. Chandra Shekar Murthy, Bangalore
Dr. Madhu Naidu, Bangalore
Dr. Nagaraj H K, Bangalore
Dr. Nagendra Prasad N, Bangalore
Dr. Nita Thakre, Ahmedabad
Dr. Vijaykumar C R, Bangalore

INTERNATIONAL FACULTY:
Dr. Ajay Rane, Australia
Dr. Gyanendra Karki, Nepal
Dr. Mohan Chandra, Nepal
Dr. Ranee Thakar, UK

REGISTRATION
8.00 am

W ORSHOP
9.00 am - 5.00 pm

INAUGURATION
10.30 am - 10.45 am

LUNCH
1.00 pm - 2.00 pm

Session 1
UPDATING KNOWLEDGE ON
• Surgical anatomy of Pelvic floor
• Stress Urinary incontinence – Current concepts
• Recent advances in Pelvic organ prolapse management

PERINEAL ULTRASOUND
Demonstration of bladder neck mobility, differentiating recto-enterocele from intussusception, identification of position and nature of midurethral slings and levator detachments and anal sphincter injuries.

Session 2
INCONTINENCE TO CONTINENCE - ANTI-INCONTINENCE SURGERIES
• TVT
• TOT
• Bursch Colposuspension - Abdominal laparoscopic
• Pubovaginal Sling

Session 3
POP – PREVENTING RECURRANCE
OT 1: Demonstration of pelvic organ supports, fascial defects and Reconstruction in a case of stage 4 POP - Vaginal sacrospinous fixation
OT 2: High Uterosacral ligament suspension, Mc Call's culdoplasty

Session 4
APICAL SUSPENSION PROCEDURES
• Vault prolapse: Sacrocolpopexy - Laparoscopic / Abdominal
• Nulliparous prolapse: Abdominal / Laparoscopic Sacrohysteropexy

LEAK FREE LIFE & MISCELLANEOUS
• Rectovaginal fistula (RVF) - repair / Complete Perineal tear Repair
• VVF repair
• Intravesical Botulinum injection,
• Laser therapy for SUI, Laser Vaginal Rejuvenation

Note: The proposed surgeries are subject to the availability of cases

Complimentary Takeaways:
• Pendrives/DVD with videos of surgeries
• Hand booklets with protocol sheets
